

Water Rights *Certification:*

April 6-7, 2017

**Why should
you Certify
in Water Rights?**

**Certifying in Water Rights
is a TANGIBLE way to
demonstrate your
Water Rights Knowledge.**

Take advantage of this Water Rights Certification opportunity and make your water rights dealings much simpler and easier.

The Division of Water Rights and the Rural Water Association of Utah have developed this certification and the training that accompanies it.

One who takes and passes the Water Rights Certification exam will be capable of navigating Utah's complicated water rights system effectively.

Sponsored by the Rural Water Association of Utah and the Division of Water Rights

Water Rights Certification

April 6-7, 2017

A two day in-depth training on Water Rights in Utah,
Including a 100 question certification exam.

Water Rights Certification

The Utah Division of Water Rights and the Rural Water Association of Utah are hosting another round of their newly-formed Water Rights certification program, which is tailored to water professionals and focuses on the intricacies of Utah's water rights laws and regulations.

By completing the certification, you will be able to show present and future employers and the State Engineer that you have the knowledge to effectively work within Utah's water rights system.

It is crucial that water professionals of all types understand the ins and outs of the issues, laws and regulations.

This training provides the only in-depth review of Utah Water Right law as it currently stands, outside of attending a law school.

This training will be held at the Division of Water Rights in Salt Lake City. We are excited to announce our second simultaneous broadcast of the event which will be held at the DXATC in St. George. Please select which location you will be attending when you register.

The Certification Exam will be held onsite at BOTH locations following the training. PLEASE BRING A TABLET OR LAPTOP ON WHICH TO TAKE YOUR EXAM.

1.2 Water CEUs earned for completing this course
